

NATIONWIDE
AUTO SERVICES

HAIL DAMAGE REPAIR (PDR)

NAS hail repair (PDR) provides expert large-scale damage repair. The NAS process includes PDR class 1 repairs, quality control and electronic reporting, and overall claim management.

OVERSPRAY REMOVAL AND CLAIM MANAGEMENT

Nationwide Overspray®, is a service of Nationwide Auto Services, Inc.

Established in 1982. Nationwide Overspray® works with insurance companies, self-insured entities, contractors, automobile manufacturers, vehicle processing centers, and the public to offer turnkey claims management. Fully insured technicians respond quickly with mobile teams located nationwide.

Nationwide Auto Services, Inc.

NAS is a privately owned Texas-based corporation. The company provides a combination of services including skilled workforce staffing for agricultural equipment, construction equipment, and automobile manufacturing. NAS also provides staffing for suppliers. The company's automotive services take place in processing centers, ports, and railheads. Overspray removal and commercial hail damage repairs are other service offerings. The company was formed in 1982 with overspray removal and expanded to the automotive industry. In 2021, NAS added workforce staffing for manufacturing to address the post-pandemic labor needs. NAS currently employs 200+ personnel working nationwide at plants, factories, and processing centers.

WORKFORCE SOLUTIONS

NAS supports agriculture, construction, and automobile manufacturing with flexible workforce solutions. The workforce can be flexed up or down quickly to support production needs.
